The designations employed and the presentation of the material in this publication do not imply the expression of any opinion whatsoever on the part of the Secretariat of the United Nations concerning the legal status of any country, territory, city or area, or of its authorities, or concerning the delimitation of its frontiers or boundaries.

Les appellations employées dans la présente publication et la présentation des données qui y figurent n'impliquent de la part du Secrétariat de l'Organisation des Nations Unies aucune prise de position quant au statut juridique des pays, territoires, villes ou zones, ou de leurs autorités, ni quant au tracé de leurs frontières ou limites.

Употребляемые обозначения и изложение материала в настоящем издании не означают выражения со стороны Секретариата Организации Объединенных Наций какого бы то ни было мнения относительно правового статуса страны, территории, города или района, или их властей, или относительно делимитации их границ.

EXPLANATORY NOTES

The purpose of "Statistics of World Trade in Steel" is to provide basic data on exports of semi-finished and finished steel products from European and other steel exporting countries in the world. This publication is purely statistical in character. For an analysis of trends and policies in the field of iron and steel, reference may be made to the periodic reviews and special studies prepared by the secretariat of the United Nations Economic Commission for Europe.

There are three summary tables. Table 1 gives total exports of steel products by exporting countries in 1992, 1993, 1994, 1995 and 1996. The second summary table, table 2, relates to total trade in semi-finished and finished steel products between the countries in the ECE region in 1996. The third summary table, Destination of exports of steel products - Total of reporting countries, aggregates all countries reporting in 1996.

Sources

The statistics in this Bulletin are compiled from the United Nations' COMTRADE database. For those countries that do not report to the COMTRADE database, the secretariat of the United Nations Economic Commission for Europe used information received directly.

Coverage

The Bulletin covers basic data on exports of semi-finished and finished steel products. Only ingots and semis are considered as semi-finished products in column 1 of table 3. All other products (col. 2 to 14 and 16) are considered as finished.

In principle, the coverage of data in table 3 is the same as that applied in table 4 of the "Annual Bulletin of Steel Statistics for Europe" as well as the "Advance Statistics" trade tables. Differences may arise due to the method of collection of data in the three bulletins and to rounding. Where individual series differ fundamentally from the standard classification and the agreed definitions and/or the coverage is incomplete, the differences, where known, are indicated in footnotes.

Comparability of data

Data are given according to commonly agreed definitions which have been worked out by the Working Party on Steel of the United Nations Economic Commission for Europe. The definitions are identical to those employed in table 4 of the "Annual Bulletin of Steel Statistics for Europe".

A list of commodities with their SITC, Rev.3 and HS codes is given on page 182.

Time period

In summary table 1 data are given for 1992, 1993, 1994, 1995 and 1996. Data shown in summary table 2, and in table 3 (country tables) refer to the calendar year 1996.

Unit of measurement

Data are given in thousands of metric tonnes.

Rounding

Where necessary, data have been rounded off to the nearest final digit. For this reason, in some cases an apparent slight discrepancy may occur between the sum of the constituent items and the totals shown.

Symbols and abbreviations employed

•	=	Secretariat estimate.
•	=	Not applicable.
...	=	Not available.
-	=	Magnitude zero. As it was not possible to distinguish between ... (not available) and - (magnitude zero) for the countries processed by the United Nations Statistical Office, the sign - (magnitude zero) has been used. In cases where data were known not to be available, this has been indicated.
0.0	=	Magnitude not zero, but less than half of unit employed.
r	=	Revised data in respect of previous issue.
n.e.s.	=	Not specified elsewhere.

NOTES EXPLICATIVES

Le bulletin "Statistiques du commerce mondial de l'acier" a pour objet de fournir des données de base sur les exportations des produits d'acier semi-finis et finis des pays européens et d'autres pays du monde, exportateurs d'acier. Cette publication a un caractère purement statistique. Pour l'analyse des tendances observées et des politiques adoptées dans le domaine du fer et de l'acier, on pourra consulter les rapports périodiques et les études spéciales élaborés par le secrétariat de la Commission économique pour l'Europe de l'Organisation des Nations Unies.

Le bulletin comporte deux tableaux récapitulatifs. Le premier (tableau 1) présente les exportations totales de produits d'acier semi-finis et finis par pays exportateur pour les années 1992, 1993, 1994, 1995 et 1996. Le tableau 2 présente le commerce total, entre les pays de la région ECE, de produits d'acier semi-finis et finis pour l'année 1996.

Sources

Le bulletin est basé sur les statistiques extraites de la banque de données des Nations Unies COMTRADE. Pour les pays qui ne rapportent pas à la banque COMTRADE, le Secrétariat de la Commission Economique des Nations Unies pour l'Europe s'est basé sur les statistiques reçues directement par l'intermédiaire de questionnaires.

Champ des statistiques

Le bulletin rassemble les exportations des produits d'acier semi-finis et finis. Ne sont considérés comme produits semi-finis que les lingots et demi-produits figurant dans la colonne 1 du tableau 3. Tous les autres produits (colonnes 2 à 14 et 16) sont considérés comme produits finis.

En principe le champ couvert par les données du tableau 3 est le même que celui du tableau 4 du "Bulletin annuel de statistiques de l'acier pour l'Europe" et que celui des tableaux du commerce des "Statistiques Rapides" trimestrielles. Des différences peuvent apparaître entre les résultats des trois bulletins en raison de méthodes de collecte différentes, ou d'arrondissement des chiffres. Lorsqu'on sait qu'une série s'écarte trop de la classification type et des définitions adoptées et/ou que les données sont incomplètes, ces divergences sont signalées dans des notes.

Comparabilité des données

Les données sont conformes aux définitions adoptées par le Comité de l'acier de la Commission économique pour l'Europe de l'Organisation des Nations Unies. Les définitions sont les mêmes que celles qui sont utilisées au tableau 4 du "Bulletin annuel de statistiques de l'acier pour l'Europe".

Une liste des produits avec les codes de la CTCI, Rev.3 se trouve à la page 182.

Période couverte

Le tableau récapitulatif 1 indique des données pour 1992, 1993, 1994, 1995 et 1996. Les données publiées dans le tableau récapitulatif 2 et dans le tableau 3 (tableaux des pays) se réfèrent à l'année civile 1996.

Unité de mesure

Les données sont exprimées en milliers de tonnes métriques.

Arrondissement des chiffres

Chaque fois qu'on l'a jugé nécessaire, les nombres ont été arrondis à l'unité du dernier chiffre significatif. Il peut donc y avoir, pour certaines séries, une légère différence entre la somme des éléments constituant et le total indiqué.

Signes et abréviations conventionnels

*	=	Estimation du secrétariat.
•	=	Ne s'applique pas.
...	=	Aucune donnée disponible.
-	=	Résultat rigoureusement nul. Comme il n'était pas possible pour les pays, dont les données ont été élaborées par le Bureau de Statistique de l'Organisation des Nations Unies, de décider si c'est ... (aucune donnée possible) ou - (résultat rigoureusement nul) qui convient, on a utilisé - (résultat rigoureusement nul). Lorsqu'on savait expressément que les données n'étaient pas disponibles, on l'a indiqué explicitement.
0.0	=	Résultat inférieur à la moitié de la dernière unité retenue.
r	=	Donnée révisée par rapport à celle du numéro précédent.
n.e.s.	=	Non dénommé ailleurs.

ПОЯСНИТЕЛЬНЫЕ ПРИМЕЧАНИЯ

Цель бюллетеня "Статистика мировой торговли сталью" состоит в представлении основных данных по экспорту полуфабрикатов и готовых изделий из стали из европейских и прочих стран в мире, экспортирующих сталь. Эта публикация носит чисто статистический характер. Для анализа тенденций и мероприятий в области черной металлургии можно использовать периодические обзоры и специальные исследования, подготовленные секретариатом Европейской экономической комиссии Организации Объединенных Наций.

Имеются две сводные таблицы: в таблице 1 приводятся данные по всему экспорту полуфабрикатов и готовых изделий из стали по экспортирующим странам в 1992, 1993, 1994, 1995 и 1996 гг. Вторая сводная таблица, таблица 2 относится ко всей торговле полуфабрикатами и готовыми изделиями из стали между странами региона ЕЭК в 1996 году. В таблице 3 объединены все страны, импортирующие стальную продукцию, по которым имеются данные за 1996 год.

Источники

Статистические данные, приводимые в настоящем бюллетене, взяты из базы данных Организации Объединенных Наций - COMTRADE. Секретариат Европейской экономической комиссии Организации Объединенных Наций использовал ответы, полученные прямо как таковые из стран, если последние не представили информацию в базу данных COMTRADE.

Охват статистических данных

Бюллетень охватывает основные данные по экспорту полуфабрикатов и готовых изделий из стали. Полуфабрикатами считаются только слитки и заготовки, указанные в графе 1 таблицы 3, а готовыми изделиями - все другие товары (гр. 2-14, 16).

В принципе охват статистических данных в таблице 3 идентичен охвату данных таблицы 4 "Ежегодного бюллетеня европейской статистики черной металлургии". Различия могут явиться результатом метода сбора данных в двух бюллетенях. В тех случаях, когда отдельные ряды данных существенно отличаются от стандартной классификации и от согласованных определений и/или охват является неполным, различия, если известны, указываются в примечаниях.

Сопоставимость данных

Данные приводятся в соответствии с согласованными определениями, которые были выработаны Рабочей группой по черной металлургии Европейской экономической комиссии Организации Объединенных Наций. Эти определения идентичны тем, которые приводятся в таблице 4 "Ежегодного бюллетеня европейской статистики черной металлургии".

Список товаров с кодами МСТК, Пересм. 3 приводится на стр. 182.

Отчетный период

В сводной таблице 1 указаны данные за 1992, 1993, 1994, 1995 и 1996 гг. Данные, приведенные в сводной таблице 2 и в таблице 3 (таблицы по странам), относятся к календарному 1996 году.

Единица измерения

Данные приводятся в тысячах метрических тонн.

Округление

В тех случаях, когда это необходимо, каждая цифра округлена до ближайшего окончательного разряда. Поэтому в некоторых рядах данных могут иметь место небольшие расхождения между суммой данных по отдельным статьям и приведенными итогами.

Условные обозначения и сокращения

•	=	Оценка секретариата.
•	=	Не применимо.
...	=	Данные отсутствуют.
-	=	Нулевая величина. Поскольку для стран, данные которых обрабатывало Статистическое бюро Организации Объединенных Наций, не представлялось возможным определить различие между ... (данные отсутствуют) и - (нулевая величина), то для этих стран было использовано обозначение - (нулевая величина). В случаях, когда было известно, что данные отсутствуют, это было специально указано.
0	=	Величина не нулевая, но меньше половины применяемой единицы измерения.
г	=	Пересмотренные данные предыдущего выпуска
n.e.s.	=	Кроме особо поименованных.
