Notice to Readers: You are holding the final printed copy

During 2004-2005, ESCAP published the *Statistical Indicators for Asia and the Pacific* online on a quarterly basis. However, as a transitional measure towards fully electronic publishing, annual compendia were printed and made available for 2004 and 2005 as United Nations sales publications.

All subscribers and readers are kindly requested to take note that this compendium is the final printed issue of the *Statistical Indicators for Asia and the Pacific*. In the future, please refer to web site http://www.unescap.org/stat/data/statind/, where the indicator set will be maintained and developed further. Other statistical publications of ESCAP are described on the back cover.

Thank you for supporting *Statistical Indicators for Asia and the Pacific* in its printed version since 1971.

Introduction and explanatory note

Statistical Indicators for Asia and the Pacific is a publication designed to provide up-to-date monthly data for the purpose of assessing the short-term demographic and economic trends in countries or areas of the region.

Although the publication provides monthly data, not all indicators are available on a monthly basis. For those indicators, quarterly aggregates are provided instead for calendar quarters.

- Data appearing in this publication are compiled from special submissions by countries or areas, official national publications, the United Nations *Monthly Bulletin of Statistics*, the *International Financial Statistics* of the International Monetary Fund and information provided by other international organizations.
- Data shown for the latest period should generally be treated as provisional.
- Figures shown between five broken lines (-----) are total for the period unless otherwise stated. For all countries, quarterly data are for quarters ending March, June, September and December.
- The following symbols are used:

  . . . data not available

  \- nil or negligible

- On 1 July 1997, Hong Kong became Hong Kong, China. Mention of "Hong Kong" in the text refers to a date prior to 1 July 1997.
- On 20 December 1999, Macau became Macao, China. Mention of "Macau" in the text refers to a date prior to 20 December 1999.

STATISTICAL PUBLICATIONS OF THE ESCAP SECRETARIAT (as at December 2005)

STATISTICAL YEARBOOK FOR ASIA AND THE PACIFIC, 2004

(E/F) Paperbound
Sales No. E/F.05.II.F.1 (ST/ESCAP/2373)

This thirty-sixth issue of a comprehensive compilation of statistical tables relating to the ESCAP region provides each country's data in a single section. Comprising 700 pages of statistical information, it shows 10 years of annual figures concerning population, manpower, national accounts, agriculture, fertilizer, industry, energy supplies, transport and communications, external trade, wages and prices, finance and social statistics. Regional tables offer consolidated data in respect of the world, of the ESCAP region as a whole and of the developing countries or areas of the ESCAP region.

ASIA-PACIFIC IN FIGURES, 2004

(E) Paperbound
Sales No. E.05.II.F.7 (ST/ESCAP/2352)

This annual statistical publication contains selected socio-economic indicators relating to population, employment, energy, national accounts, external trade, government finance, international finance, production, prices, land use, transport, tourism and social statistics concerning the countries or areas of the ESCAP region.

STATISTICS DIVISION WEBSITE <http://www.unescap.org/stat/>

Information on statistical publications and a limited volume of statistical data are available on the ESCAP Statistics Division website. The website also contains information on technical and legislative meetings and activities organized by the Statistics Division of ESCAP, including papers presented to and reports of meetings since the mid-1990s. National statistical offices in the region are listed, with hyperlinks where available. Selected highlights:

Online data

ESCAP Data Centre <http://www.unescap.org/stat/data/> provides links to all major statistical data holdings of the secretariat.

Statistical Indicators for Asia and the Pacific online publication <http://www.unescap.org/stat/data/statind/> provides monthly statistics for the assessment of demographic and economic trends. It includes series on population, industry, transport, internal trade, external trade, prices and finance in selected countries or areas of the ESCAP region, accompanied by charts for some important series. The data content may vary from country to country depending on the availability of monthly series.

Statistical Newsletter

This newsletter, published quarterly by the Statistics Division, is available on line at <http://www.unescap.org/stat/nl/newlet.asp> and contains information on activities of the Statistics Division and those of international organizations and member countries and areas.

AD HOC PUBLICATIONS

GENDER EQUALITY AND EMPOWERMENT: A STATISTICAL PROFILE OF THE ESCAP REGION

<http://www.unescap.org/stat/statpub/gender_profile_publication.pdf>

The current gender situation in the Asia-Pacific region is described through a small set of statistical indicators. Insight into individual indicators across the region can be obtained from the dataset in comparative tables. The publication was prepared to assist the regional appraisal of the Beijing Platform for Action and the Beijing+10 global review on the occasion of the forty-ninth session of the Commission on the Status of Women, held in New York in March 2005.

INTEGRATING UNPAID WORK INTO NATIONAL POLICIES

Sales No. E.03.II.F.14 (ST/ESCAP/2236)

This guidebook has been developed jointly by the Statistics Division of ESCAP, the United Nations Development Programme (UNDP) and the United Nations Development Fund for Women (UNIFEM). It provides a toolbox to help improve the collection, analysis and utilization of data and statistics on unpaid work to ensure more relevant policymaking and programming. It draws heavily from country experiences that show the utilization of time-use data as a tool for measuring and estimating the economic value of unpaid work, and the inclusion of the results in policy formulation.

FIFTY YEARS OF DEVELOPMENT IN ASIA AND THE PACIFIC

This colourful, double-sided, A1-size wall chart, prepared for the sixtieth session of ESCAP, held in April 2004, presents selected socio-economic indicators for Asia and the Pacific since 1950. The series are presented in charts for the six subregions of ESCAP and some indicators are available for all 58 members and associate members of ESCAP. Snapshots of development at the country level and brief commentaries are also provided.
